

fibreflow™
Stripper Fibre 10A
Product Code 7335

Product Description

The stripper 10A is designed to strip the 250µm buffer from primary coated fibres. A precision laser drilled hole of 127µm, in the hardened and ground cutting surface, makes the tool suitable for all 125µm clad fibres. The tool has a spring action design to ensure that the blades automatically return to the open position when not in use.

Material/Technical Specification

Materials – metal with plastic handles.
