

PVC DUCT DOUBLE RING SEAL COUPLER

PowerProtect+

EF450-029 (Rev2)

General

Ementelle Double Ring Seal Couplers are manufactured from a solid wall PVC duct and provide the means to connect two spigot ends of duct bringing back the directional element of the sockets within the main duct run, following use of plain-ended fittings.

Used within Power applications where an IP-57 rated connection is required.

Size ranges are 110mm OD, 160mm OD and 200mm OD.

Other sizes may be available upon request.

Double Ring Seal Couplers are supplied in non-returnable woven polypropylene sacks, which are biodegradable. The sacks are designed to be stored on an even, dry and stable area; they are not to be stacked upon.

Physical Characteristics

Raw Materials are PVC resin and other additives suitable for the required properties of the finished product.

Standard colours are Black, Grey.

Other colours may be available upon request.
